Front-end developer React

ÜMA Salud 2021 -

I work mostly in the frontend side of the project.

Main responsibilities:

- Develop and implement user interfaces for web applications,
- Collaborate closely with designers and back-end developers to create seamless user experiences.
- Conduct code reviews and perform optimization techniques to improve website performance.
- Work on responsive web design projects, ensuring optimal user experience across different devices.
- Implement best practices for web accessibility, adhering to WCAG guidelines.

Front-end developer React

Abstract Solutions Limited 2019 - 2021

I worked mostly in the frontend side of media projects.

Main responsibilities:

- Research and define technologies for frontend development.
- Research and apply best practices.
- Architect new frontend application with React.
